About Eagleville's Patient Emergency Fund

The Patient Emergency Fund of Eagleville Hospital provides basic necessities such as clothing, undergarments, shoes, toiletries and eyeglasses to patients in need. Patients benefitting from this Fund arrive for treatment without these basic items and have no means of acquiring them.

About Eagleville Hospital

Directed by the Eagleville Foundation, Eagleville is a private, not-for-profit facility that serves as a regional resource for prevention, training, research, and treatment related to addiction, co-occurring disorders and other behavioral health problems. Our outpatient affiliate, Riverside Care, Inc., provides a full continuum of community-based treatment programs for alcohol and drug dependent men, women and adolescents.

Proud To Serve

Eagleville Hospital has been treating chemically dependent patients since 1966. As a pioneer in the field, Eagleville offers a variety of hospital and non-hospital residential programs for the prevention and treatment of addiction, co-occurring disorders and other behavioral health problems. Treatment services are provided in a multi-disciplinary environment that attends to the related medical, mental health and social problems of the men and women we serve.
